🐙 [twinkalp10](#)

Self-Taught Frontend developer currently looking for an opportunity to leverage my skills in the frontend domain.

## MY PROJECTS

### PET ADOPT

Technology used: HTML, CSS, React.js

Pet Adoption website that allows you to search pets with your choice of breeds from the menu, also allows you to enter your location.

🔗 <https://adoptme.twinkal.xyz/>

### TENZIES

Technology used: HTML, CSS, React.js

Super cool number rolling Tenzies Game built with React.js. It allows you to roll the button and select the number of your choice to win the Game!

🔗 <https://tenzies.twinkal.xyz/>

### PACMAN GAME

Technology used: HTML, CSS, JavaScript

Cool Pacman game built with JavaScript allows you to eat power pellets and fight with ghosts. I'm sure you have played this game in your childhood. You should definitely give it a try! Control your Pacman using arrow buttons.
